Average age vs month rented
Max age is in the 100s?!?

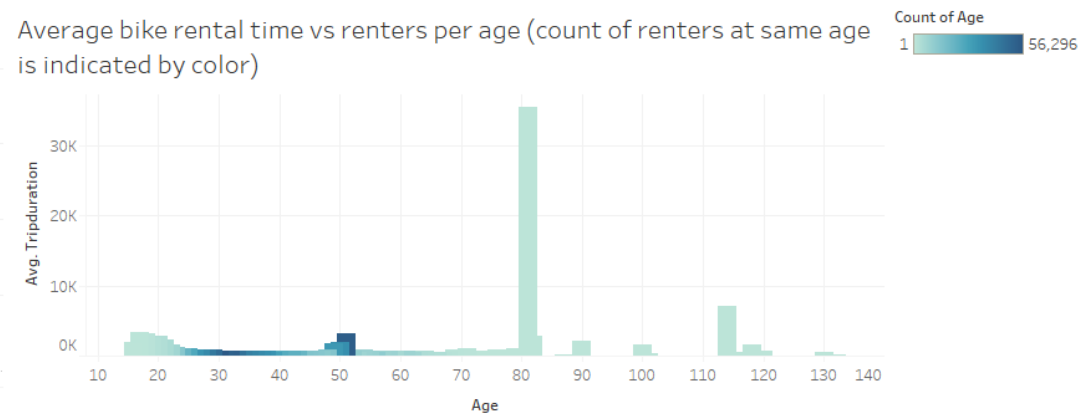

The above table reveals ath some one(s) in their 100s rode a bicycle mosst months. Or that people are not beng honest with their age.
The average age of bicycle rides is similar each month ranging from 36.6 to 40.6 years of age

Unique bikes vs Age

Average bike rental time vs renters per age (count of renters at same age is indicated by color)

Here we see a darkening by the ages most using the bikes. We see a groupin garoung the 30s and 50s.
