

## Start Station Frequency

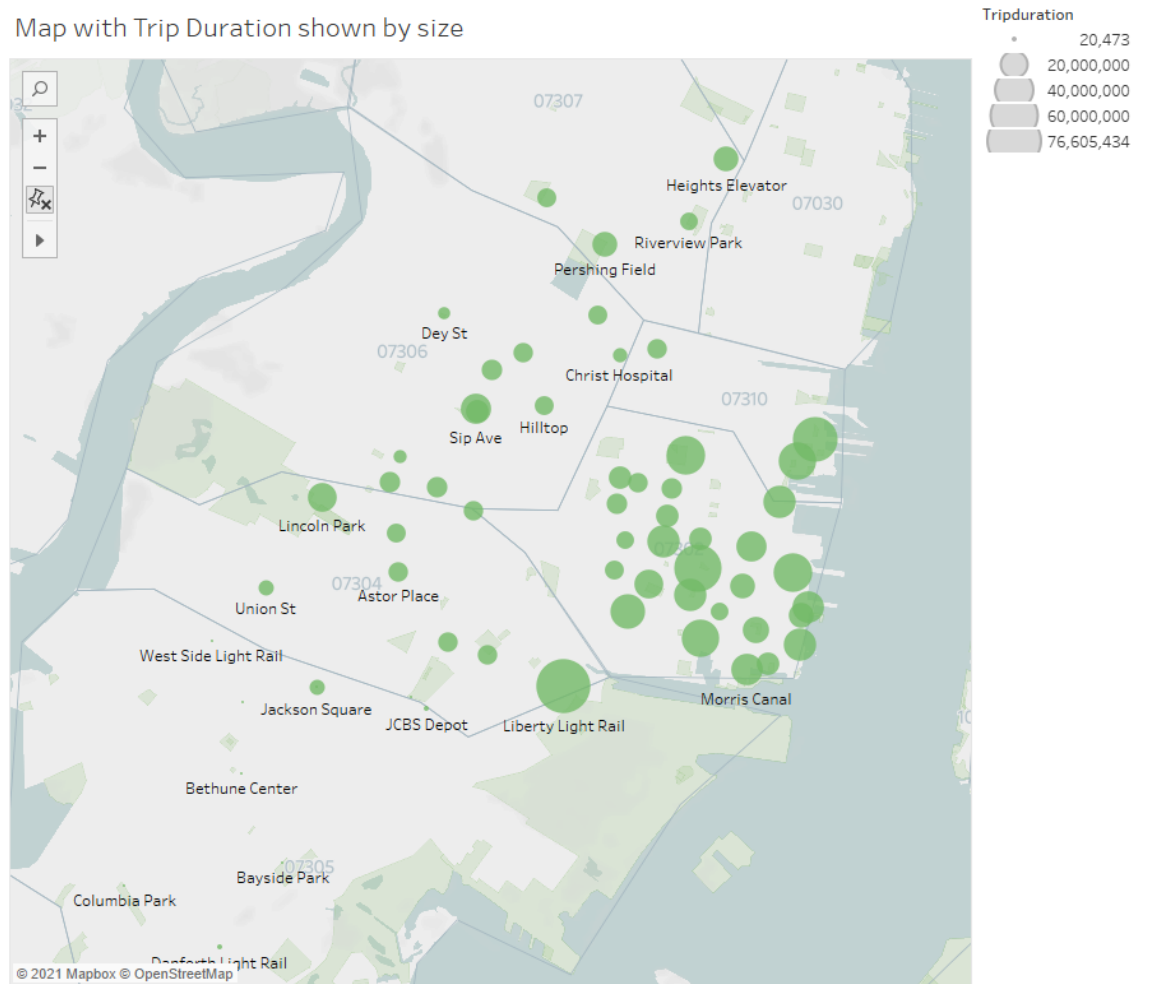

The start and end stations are very closely related. Having a 9/10 match between the two.

## End Station Frequency

JCBS Depot has a lot of ending routes, however not many starting riders.

## Map with Trip Duration shown by size

This map reveals the start locations for citybikes. The size increases each time a bike was checked out from that location, revealing that the Liberty Light rail is the top location for users of the city bikes. It also shows that the more inner city you are the more common users of these bikes are
